Scout Program Guidelines

The Douglas-Hart Nature Center provides an excellent setting for nature and science related badges in a hands-on and fun environment.

- Most programs require three hours to complete, but length and prices vary per program. The first price designates the cost of the program per scout *without* a badge. This covers resources, crafts, and other items needed for the program. The second price designates the cost of the program with the badge included.
- The minimum number of participants for a scout program is five scouts.
- Adults and siblings may attend programs. There is no charge for adults or siblings, unless siblings are participating in the program.
- Participation does not always fulfill requirements for a badge. Programs with a * designates there is one or more post requirements that must be completed. Post requirements will be listed as (PR:1, 2)
- Programs may be completed in one day or over the course of multiple days.
- Participants need to dress and be prepared for all elements of weather since most programs include outdoor time. (Sunscreen, insect repellent, coats, etc).
- If you do not see a program you are looking for, please contact us. We are always working on additional programs!
- Certain badge programs may be conducted at your site. This involves a travel fee plus a per scout fee. Please inquire which programs may be done offsite.
- To obtain specifics about any of these badges, please visit our website at www.dhnature.org. Under the Education tab, select Girl Scouts.
