

Girl Scout Programs

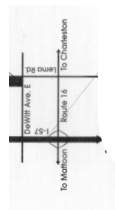

Scout Program Guidelines

The Douglas-Hart Nature Center provides an excellent setting for nature and science related scout badges and patches. All programs are hands-on and use activities that involve scouts and their leaders. Dates fill fast, we recommend booking three months in advance. Girl Scout Program guidelines:

- Length and prices vary per program. The first price designates the cost of the program per scout *without* a badge. This covers the resources, crafts, and other items needed for the program. The second price listed is the cost of the program with the badge included.
- The minimum number of participants for a scout program is five girls, with a minimum of \$20 per program. On occasion, a second instructor may be used.
- We encourage limiting adults and siblings who attend programs to keep the experiential learning focused on the Girl Scouts. There is no charge for adults or siblings, unless siblings are participating in the program.
- Participation does not always fulfill requirements for a badge or patch. Programs with a * means there is one or more post requirement as part of the badge that must be completed on the Scouts own time.
- Times listed may be adjusted, however requirements may be affected.
- Some of the longer programs may be completed in one sitting, split up over lunch or between two days.
- Participants need to dress for all elements of weather since most programs have some outside time. (Sunscreen, insect repellent, ponchos, coats, etc).
- If you do not see a patch or badge you are looking for please contact us because we are always working on additional programs!
- Certain badges may be conducted at your site. This involves a travel fee plus a per scout fee. Please inquire which programs may be done offsite.
- To obtain specifics about any of these badges, please visit our website at www.dhnature.org, under the Education tab, select Girl Scouts.
